

Efrat Mayan has done an exquisite job in the development of "The Soul Creatures Land". The cards, the drawings, and the packaging are visually very engaging and pleasing. Users are sure to have a grand time using them while enhancing their positive personal growth.

The product she's developed **"The Soul Creatures' Land: The Magical Powers and Imps Within Us"** is sure to help lots of people and I think the coaching community in the USA will take strongly to it. She sent me a copy of the product. It is extraordinarily well crafted, and eye catching.
